Main data		Machine ID:	SN: 750 MB 151203
	Type:	Hydraulic spooler 20T	
	Ex (Atex) zone:	N/A	
	Ex Marking:	N/A	
	Key info:	Electrical driven self-contained spooling unit (20 Tonne)	
Drum and wire rope			
Max pull	14 T (Back tension: 3400kg @ 210bar)		
Max drum weight:	20 000 kg (included wire)		
Drum width:	0 – 2650 mm		
Drum diameter:	4000mm		
Available spooler shaft:	100mm and 140mm		
Over/under spooled:	Both possible		
Hydraulic			
Demand Flow:	N/A		
Working Pressure:	210 bar (max)		
Max speed:	2,5 rpm @ 66 l/min		
Reservoir (tank)capacity:	200L		
Electrical			
Power supply:	400V 32A		
Current consumption:	32A		
Framework			
Dimensions (LxBxH):	L6060 x W2435 x H2489 mm container corner lock		
Lifting:	2 or 4-leg sling or forklift pocket and container corner lock		
Weight (With foundation):	9 000 kg (Without wire and Drum)		
Connections			
Power supply cable:	32A 25 Meter		
Alarm signal cable:	N/A		
Hydraulic Pressure line:	N/A		
Hydraulic return line:	N/A		
Hydraulic drain line:	N/A		
Water Cooling:	Air cooled if needed
